

EvoTouch.APC DALI-2 Glass Touch Panel, 3 Buttons, 2 Sliders

Application Controller

TCH-434x-01A is a modern DALI-2 control panel that combines advanced technology with sophisticated design. Its glass front and intuitively designed icons provide an elegant and universal interface that meets the expectations of even the most demanding users. The panel operates autonomously without a DALI controller, functioning in Application Controller mode. It enables addressing of DALI luminaires, switching, scene selection, and smooth adjustment of light intensity for two independent groups of luminaires. Additionally, three LED indicators show the current status of individual groups or the selected scene, significantly enhancing user comfort. Available in classic white or elegant black. Custom versions, including panel colours, configuration of sliders and icons, are available upon request.

Technical specifications

Power supply	9,5 ÷ 22,5 V DC (via DALI Bus)
Current consumption from DALI Bus	7 mA
Communication protocol	DALI-2
Application Controller	yes
Number of status indicator LEDs	3 x LED
Wiring terminals	WAGO spring terminals, wire from 0,25 to 2,5 mm ²
Mounting	Ø60 mm flush-mount box
Dimensions	86 x 86 x 36,5 [mm]
Color	White or black
Materials	ABS + PC + Glass
Operating temperature	0 °C to +50 °C
Storage temperature	-20 °C to +50 °C
Relative humidity	5 % ÷ 90 %, non-condensing
Weight	140 g
Protection	IP 20
Conformity mark	CE
Part number / EAN – White colour	TCH-434W-01A / 5904423369544
Part number / EAN – Black colour	TCH-434B-01A / 5904423369551
