

EvoRing.APC DALI-2 Glass Touch Panel, 5 Buttons, 1 Slider, Application Controller

RNG-212x-01A is a modern DALI-2 control panel that combines advanced technology with sophisticated design. Its glass front and intuitively designed icons provide an elegant and universal interface that meets the expectations of even the most demanding users. The device operates autonomously without a DALI controller, functioning in Application Controller mode. Equipped with five touch buttons and a circular slider, the panel enables switching on and off, selecting one of four available scenes, and smooth adjustment of light intensity for a single group of luminaires. It is ideal for controlling four scenes of DALI luminaires. Additionally, four LED indicators show the status of the selected scene, significantly enhancing user comfort. Available in classic white or elegant black. Custom versions, including panel colours and configuration of the icons and slider, are available upon request.

Technical specifications

Power supply	9,5 ÷ 22,5 V DC (via DALI Bus)
Current consumption from DALI Bus	8 mA
Communication protocol	DALI-2
Application Controller	yes
Number of status indicator LEDs	5 x LED, configurable
Wiring terminals	WAGO spring terminals, wire from 0,25 to 2,5 mm ²
Mounting	Ø60 mm flush-mount box
Dimensions	86 x 86 x 36,5 [mm]
Color	White or black
Materials	ABS + PC + Glass
Operating temperature	0 °C to +50 °C
Storage temperature	-20 °C to +50 °C
Relative humidity	5 % ÷ 90 %, non-condensing
Weight	140 g
Protection	IP 20
Conformity mark	CE
Part number / EAN – White colour	RNG-212W-01A / 5904423369582
Part number / EAN – Black colour	RNG-212B-01A / 5904423369599
