

EvoRoom.3RN Glass Hotel Info Panel DnD/MuR, Modbus RTU

RMI-3RNx-02M is an information module with Modbus RTU communication designed for hotels. Its glass front and intuitively designed icons provide an elegant and universal interface that meets the expectations of even the most demanding guests.

This info panel provides typical hotel room functionality, indicating the DnD (Do Not Disturb) and MuR (Make up Room) statuses, as well as the presence of a pet in the room. By default, the panel has the room number printed on it.

Once the guest selects a request on the EvoRoom.83D series room control panel, the appropriate symbol will be immediately shown (via a dedicated LED) on the EvoRoom.3RN module placed outside the room. This information can also be automatically forwarded to the hotel management system, streamlining hotel room management.

Available in classic white or elegant black. Custom versions, including panel colours and icon configuration, are available upon request.

PRODUCT DATA SHEET

Part Number: RMI-3RNx-02M

Technical specifications

Power supply	8 ÷ 28 V DC
Max. power consumption	<2W
Communication protocol	Modbus RTU
Interface	RS-485 half-duplex
Addressing	1÷247
Baud rate	1200 ÷ 115200 bit/s
Data bits	8
Stop bit	1 / 2
Parity	EVEN / ADD / NONE
Default	247, 9600, 8N1
Wiring terminals	WAGO spring terminals, wire from 0,25 to 2,5 mm ²
Mounting	Ø60 mm flush-mount box
Dimensions	86 x 86 x 36,5 mm
Color	White or black
Materials	ABS + PC + Glass
Operating temperature	0 °C to +50 °C
Storage temperature	-20 °C to +50 °C
Relative humidity	5 % ÷ 90 %, non-condensing
Weight	150 g
Protection	IP 20
Additional information	Device configuration via Modbus RTU register writing
Conformity mark	CE
Part number / EAN – White colour	RMI-3RNW-02M / 5904423369360
Part number / EAN – Black colour	RMI-3RNB-02M / 5904423369377
